

Colorado Change
Agents: 2019-2020
Report Out

1. Beginning of the year

Creating a plan

Brainstorming:

- × Survey from last year
- × Create presentation, either for students or teachers
- × Needed to contact people to help me

2.

Action and Communication

Email to Mrs. Goertz

- × Included initial idea of presenting to teachers to then have them educate their students
- × Would be on a Friday as part of the training the teachers get
- × Couldn't be done at the time, but she gave my contact information to the APs

Started communicating with Mr. Quig

Foundation

Meeting with Mr. Quig:

- × Went over why this was important
- × I would create a presentation about the protocols and present to the 9th graders at their assembly in April

Creating the most accurate presentation

- × Talked to multiple people
 - × Greg Cazzell
 - × Mr. Ventura
 - × Mrs. Martin
- × These people allowed me to have accurate information and gave me ideas on how to best present it

Presentation for freshmen

Background Information

- Who I am
- Why I'm doing this
- The importance of knowing the safety protocol

Secure Perimeter and Lockdown

- Protocol has changed in recent years
- Went through new procedures
- Misconceptions

3. COVID Changes

This year took a very unexpected turn

Modifications

- × School year was cancelled, couldn't do presentation
- × Virtual presentation, pre-recorded
- × Created a new survey to see if ninth graders knew the protocol
- × Also used survey to see if they had any questions
- × Used their responses to modify the presentation and highlight certain points

83 Responses

62% of students

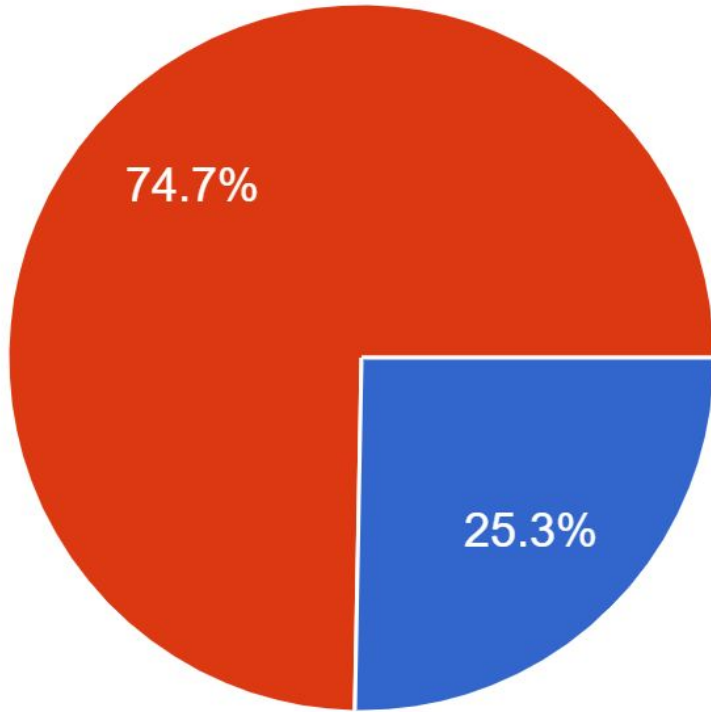

Pick the correct reasons as to why we go into lockdowns

68%

Accurately described what to do for a secure perimeter and lockdown (not all 68% did both)

That's 32%

Of students that wouldn't know what to do in an emergency

- Yes
- No

Question: Were you aware that APS's safety protocol changed a few years ago?

4.

Next Steps

Period of waiting

1.

Hear back for any changes to the protocols due to COVID

2.

Possibility of recording PSA styled video to show students more visually

3.

Need to know if APS will change safety systems in the coming school year

Thanks!

Any questions?

And thank you to everyone that helped make this presentation
and work possible!
